

# AQUAEYES

Keep a close eye on underwater operations with aquaEyes. This all-in-one video streaming solution features an unlimited network of Innovasea's high-resolution IP cameras and an intuitive user-interface that displays live footage from up to eight cameras at the same time.

aquaEyes gives feed operators and remote managers eyes on their fish 24/7 – and the visibility they need to make critical real-time decisions for multiple pens or tanks. Seamless integration with Innovasea's AI-solutions for pellet detection, fish satiation and remote feeding helps automate operations and further control feed waste.

| AQUAEYES |

## USE CASES

- Farms looking to have better surveillance and control over feeding and underwater activity
- Operations with limited staff that desire round-the-clock monitoring
- Sites that require robust equipment due to harsh open ocean environments
- Feed managers who want to optimize remote feeding with fish satiation and pellet detection AI algorithms

## BENEFITS

**Determine optimal feeding windows** to reduce feed waste and maximize growth.

**Monitor underwater operations**, fish welfare and equipment performance.

**Manage multiple pens**, feeders and farms from a single location.

**Maintain crystal clear imagery** with the anti-fouling lens design.

**Plug-and-play software** enables video streaming from several cameras at the same time.

**GET REAL-TIME VISIBILITY** INTO FISH PEN ACTIVITY IN FULL HD.

## AQUAEYES

### CAMERA SPECIFICATIONS

- Camera housing: Acetal
- Diameter: 74 mm
- Length: 163 mm
- Depth Rating: 100 m
- Resolution: 1080P HD (1920 x 1080)
- Frame Rate: Up to 30 frames per second in 1920 x 1080 and all other resolutions
- Field of View: 65 degrees (horizontal)
- Network Interface: 100 Mbps Ethernet
- Software Compatibility: aquaEyes app or web browser

### PAIR WITH

- Innovasea's FlowFeeder System
- Any Internet Protocol (IP) Camera
- Artificial intelligence solutions:
  - Fish Satiation
  - Pellet Detection
  - Remote Feeding
  - Biomass Estimation
- Structure and netting mounts

#### About Innovasea

Innovasea designs the world's most technologically advanced aquatic solutions for fish tracking and fish farming – and builds them to withstand the toughest conditions. We partner with customers to fully understand their needs and solve their most pressing challenges. It's all driven by a commitment to make our ocean and freshwater ecosystems sustainable for future generations. **Today. Tomorrow. For life.**
